

SCJS

SUSTAINABLE CRIMINAL JUSTICE SOLUTIONS
Strengthening the Rule Of Law

CRIMINAL JUSTICE CAPACITY BUILDING
THROUGH HIGH QUALITY TRAINING

FS 639602

Founded in 2011, Sustainable Criminal Justice Solutions (SCJS) is a UK-based, not-for-profit community interest company. As a trusted public sector delivery partner for and on behalf of the UK Government, SCJS delivers 'Rule of Law' missions across the world, supporting policing and criminal justice capacity building projects. Many of these projects are sponsored and funded by or on behalf of the European Commission, the UK Home Office, Ministry of Justice or Foreign and Commonwealth Office.

SCJS staff have a track record of project management and delivering successful results for small, medium and large scale multinational programmes. This includes high quality training in the areas of crime investigation, criminal justice reforms and international development programmes. SCJS experts can be deployed across the world to deliver exceptional training courses, meeting the individual requirements of clients and participants.

“I’ve not only learned what I was eager to learn but I also became more flexible and more self-confident.”

SCJS design and deliver tailored training solutions which consider culture, custom and national legislative frameworks. The inclusion of qualified educational specialists within our core team enables us to assist international administrations with sustainable solutions for their learning, development and training needs. SCJS training is underpinned by academic rigour, which is supported through strong collaborations with partner universities. Building on our expertise in training development and utilising the operational skills of our subject matter experts, SCJS has achieved an outstanding training delivery record providing a diverse range of training programmes, delivered on behalf of UK Government, the European Commission and agencies around the globe.

The SCJS training portfolio includes, but is not restricted to the following modules: Court Room Skills, Intelligence, Hostile Environment Awareness Training (HEAT), Investigation, Interviewing & Search techniques, Organised Crime, Forensic & Crime Scene Identification, Anti-Corruption, Counter-Terrorism, Money Laundering, Public Order, Cyber Crime, Research & Analysis, Train-the-Trainer and Information Management.

“They are an exemplary UK training provider who we would recommend to other International donors seeking Law enforcement type training.”

“I was so impressed with the instructors and course content I have requested the same courses to run again.”
